High Low usage has been observed in terms of sessions .

COCKPIT CHARTS

Findings

1. Positive trends on monthly subscription
2. Monthly watch time trend is increasing on monthly basis
3. An upward trend is observed on the monthly and time of the day sessions
4. Wimbledon has the lowest viewers
5. NC, FS and Northwest are the lowest in terms of subscriptions
6. Gauteng is the leading in terms of viewers (retention strategy)
7. Low usage observed

Reccomendations

1. Increase network capacity and coverage for increasingly subscriptions, monthly watch time and sessions
2. Campaign to get more female viewers
3. Survey to be sent through to all viewers specifically addressing all opportunities
4. Woldblom channel to be completely removed and substituted with other channels to increase sessions span.
5. Investigate the coverage in the 3 lowest provinces in terms of subscription
6. While implementing new strategies, a retention strategy remains critical
7. Broadcast other channels for a longer period

An aerial photograph of a city at night, likely New York City, showing a dense grid of buildings and streets. The city lights are visible against a dark sky. A large, semi-transparent blue circle is centered over the image, containing the text '- Thank You -' in white. The circle has a thin white border.

- Thank You -
